- » Customized preventive maintenance programs
- » Non-destructive testing, including:
 - Eddy current tube analysis
 - Infrared scanning
 - Refrigerant analysis
 - Spectrographic oil analysis
 - Vibration analysis
- » Retubing
- » System & equipment retrofits
- » Tube cleaning
- » Temporary chiller installation

Comprehensive and reliable services

As the region's largest independent chiller group, DeBra-Kuempel's **EPA-certified and factory-authorized experts** are your single source for comprehensive, high-quality chiller services. And since we're brand neutral, we have vast experience servicing machines from manufacturers such as **Carrier, McQuay, Trane** and **York**— including replacement/enhancement products and more.

For increased chiller performance, we offer our **Chiller EDGE**, a computerized advanced chiller efficiency testing program. With this program, we evaluate your chiller's operating efficiency and identify ways to improve it. Once we've made the improvements, we re-test to ensure that you're getting the energy benefits you expected.

It's a comprehensive package of expert high-quality chiller services designed to keep your facility comfortable and productive. At the same time, these services can lower energy and operating costs, while extending your equipment's useful life.
