

Mission Critical Services for Ultra- Low Temperature Environments

DeBra-Kuempel is one of the region's largest and most complete providers for ultra-low temperature refrigeration services. We **design, install, and maintain refrigeration equipment** and systems found in a wide range of mission-critical environments, including **laboratories, hospitals, research facilities, blood banks, storage centers, food/drug processing plants**, and more.

Complete, Customized Maintenance

Our factory authorized experts provide customized service solutions to help ensure you receive required preventive maintenance and calibration on all your critical assets. Preventive maintenance is one of the best ways to help extend equipment longevity, maintain compliance, minimize risk, and achieve the precise reliability demanded by laboratory applications.
