## Expanding your options— maximizing your performance

DeBra-Kuempel has more than 70 years of experience designing and installing building automation systems, ranging from the latest Internet-based open-architecture technologies to complex pneumatic systems. We implement the most advanced energy savings algorithms to automatically optimize the operation of the HVAC, lighting and other building equipment. Because we represent multiple system manufacturers, we can always provide the right solution for your needs and operating goals.

### Design/Build, installation & service

Our factory-certified automation designers, technicians, and electricians provide the highest level of project delivery. We also provide ongoing maintenance programs and technical support for all of your automation

needs. Put it all together, and you have a package of superior services that can make a significant difference in your facility's comfort, productivity, and energy efficiency.

### A smart approach to controlling rising energy costs

In today's unpredictable economic environment, rising energy costs are a continuing concern for many facilities owners and managers. DeBra-Kuempel's advanced energy reporting software can help. It enables you to accurately baseline and track your facilities' utility costs, so you can make smarter

management decisions and optimize energy savings throughout the life of your systems.
