

**This lifetime warranty provides the following benefits:**

- » Helps ensure consistent system operation
- » Protects your equipment investment
- » Ensures peace of mind from costly equipment replacements
- » Warranty covers virtually all equipment brands
- » Guaranteed protection at no additional up front cost  
(Most manufacturers' warranties are an additional fee)

## Compressor Warranty Protection For the Lifecycle of Your Compressor

For newly purchased and installed equipment, with a Debra-Kuempel maintenance agreement, we offer full compressor warranty protection for the lifecycle of the equipment—**at no additional cost.**

Debra-Kuempel is manufacturer independent, and our technicians are highly trained and qualified to install, operate, and maintain virtually every make and model of mechanical systems.

We stand by the equipment we install, and we stand by our clients.

In the unlikely event of a compressor failure—as long as we maintain your equipment—we will install a new, comparable compressor, free of charge.

We are one of the first and only manufacturer-independent service providers offering compressor warranty coverage on new equipment we install and maintain because we believe in providing the best possible value to our clients. While other providers are cutting corners to cut costs, we are offering a full guarantee with our installations—that's quality you can depend on.

Debra-Kuempel stands by the compressors we install, and we stand by our clients.

We are always evaluating new and innovative programs to service our customers more effectively, which provides improved facility operations and higher levels of satisfaction.
