TESTING, ADJUSTING AND BALANCING BUREAU
THE PROFESSIONAL'S CHOICE™

Certified. Compliant. Competitive. And, of Course, Balanced.

Backed by more than 70 years of experience, DeBra-Kuempel provides a wide range of mechanical, electrical, plumbing, and process piping services, including mechanical equipment air and water balancing.

DeBra-Kuempel is certified in air and hydronics by the National Environment Balancing Bureau (NEBB) and the Testing, Adjusting, and Balancing Bureau (TABB). We have eight full time, certified balancers on staff who can test, adjust, and balance virtually any new or existing air or water system, including constant volume, variable volume, hot water, chilled water, exhaust hoods, kitchen hoods, and many more types of systems.

Environmental Protection. That Begins Inside.

DeBra-Kuempel offers precise testing, adjusting, and balancing of interior environmental systems. We offer site surveys of mechanical systems and engineering studies to develop system capacity for current building use to give balancers accurate system performance. Benefits included efficient and economical systems operation, improved cost control, and increased occupant comfort.

A Full Suite of Testing and Balancing Solutions.

HVAC-certified Testing,
Adjusting and Balancing:

- » Air and hydronic systems
- » Regulatory compliance systems
- » Commissioning support
- » Energy audit support
- » Mechanical repair services

HVAC, Fire, Life Safety
Systems Inspection and Testing:

- » Fire dampers
- » Smoke controls systems
- » Smoke removal systems
- » Stair pressurization systems

Certification Compliance Testing Services:

- » Laboratory fume hood and bio-safety cabinet-related lab equipment air volume certification testing
- » Laboratory airflow pressurization
